# FEBRUARY 2025 NEWSLETTER

Each District has come together to create a statewide grant impact map. The Nebraska Regional Officials Council (NROC) has been working on this impact map following a strategic planning session. It is finally ready for the public to view, while not every grant in history is shown, yet, it's a great start that will be updated down the road. You can explore the map and see all the great projects we've been working on at:

## Flood Disaster Funding throughout the Region

It's been said that disaster recovery takes a long time, the work has been done, the projects have been completed, and now the CDBG-DR funds are being reimbursed to our counties and communities following the disastrous 2019 flooding. **We helped 5 counties and 10 communities apply** for federal Community Development Block Grant (CDBG) Disaster Funds in June of 2022. **Nearly 1 million dollars are being reimbursed to those entities for repairs on infrastructure damaged during the devastating 2019 floods.**
