CNEDD Nuisance Abatement

At CNEDD, we believe that strong communities are built one property, one neighborhood, and one improvement at a time. That's why we're excited to expand our services to include nuisance abatement, helping communities throughout central Nebraska maintain safe, attractive, and welcoming environments for residents and visitors alike.

Nuisance properties can present challenges for communities of all sizes. Accumulated debris, abandoned vehicles, and deteriorating structures can affect neighborhood appearance, property values, and public safety. For smaller municipalities, addressing these concerns can be particularly difficult when staff, time, and resources are limited.

CNEDD's nuisance abatement program is designed to help ease that burden. By working alongside local officials, we can assist with property assessments, documentation of potential code violations, mapping, and ongoing monitoring. Our goal is to provide communities with the tools and support they need to address nuisance concerns in an organized, consistent, and effective manner.

Nuisance abatement is about more than addressing problem properties. It's about investing in the future of our communities. Well-maintained neighborhoods encourage community pride, support local development, and help create places where people want to live, work, and raise their families.

We understand that every community has its own needs and challenges. CNEDD is committed to working with local leaders to develop practical approaches that respect those differences while supporting long-term community improvement.

Whether your community is looking to establish a nuisance abatement program or needs assistance managing an existing one, CNEDD is here to help.

Interested in learning more? Contact CNEDD to discuss how our nuisance abatement services can support your community's goals.

Applications are due by November 30th to be considered for 2027 nuisance abatement.
